

GROS BOUQUET 4 Library Project

It has been an activity filled season for the Community Service team. Motivated by our motto, FIDS (Feel, Imagine, Do and Share), we all embarked on efforts towards making our project **'Adopt a Library'** a reality. We started off with a generous book donation.

Mr. Hanslo with his Year 5 students initiated a book drive, appealing to all Primary Students to donate French reading books. This was a remarkable success, where they raised more than 200 books and substantial funds in their UOI project to support the move.

On Saturday the 11th February 2017, the Community Service teachers' team also visited Ecole Gros Bouquet 4's library and engaged in a vigorous reorganization of the library, followed by a thorough cleanup of the facility. The new books were handed over to the school library and arranged on the shelves by the team. This was an entire day's devotion which successfully realized the library a totally new look.

We were greatly honored to present all the books to the excited students of Gros Bouquet 4, in their new look library.

We are motivated to carry out similar projects as a way of reaching out to more children in Gabon.

'Great readers make great leaders'.

Eunah Njoroge,
Community Service Leader
