The Faculty of Arts seeks to:

- enable students to develop in all creative, intellectual and practical aspects necessary to express themselves artistically, to understand the world of fine arts in which they live and to appreciate the cultural diversity of humankind
- provide each student with opportunities to express a variety of stimulating learning experiences, through constant and regular assessments with detail specific outcomes and criteria, allowing students to reach their full potential holistically
- promote a well-rounded approach to art education, providing opportunities for students to experience as many areas of traditional and new emerging media visual expression as possible, keeping care for the environment at the centre of our work
